

Understand the ins and outs of critical illness insurance

Coverage that helps pay the expenses associated with having a serious illness

Life doesn't always go as expected. Serious illnesses happen. And while medical insurance helps pay for medical expenses, and disability insurance replaces a portion of lost income, they don't cover all the costs associated with having a serious illness.

That's why Principal® offers a way to help employees financially prepare for their expenses if the unexpected happens. With critical illness insurance, when a covered employee or family member is diagnosed with a specific critical illness, they receive a lump-sum cash benefit to use any way they choose, regardless of other insurance they have or actual expenses incurred.

Covered illnesses

- Alzheimer's disease
- Amyotrophic lateral sclerosis
- Benign brain tumor
- Carcinoma in situ (25% benefit)
- Coma^{1, 2}
- Coronary artery disease (25% benefit)
